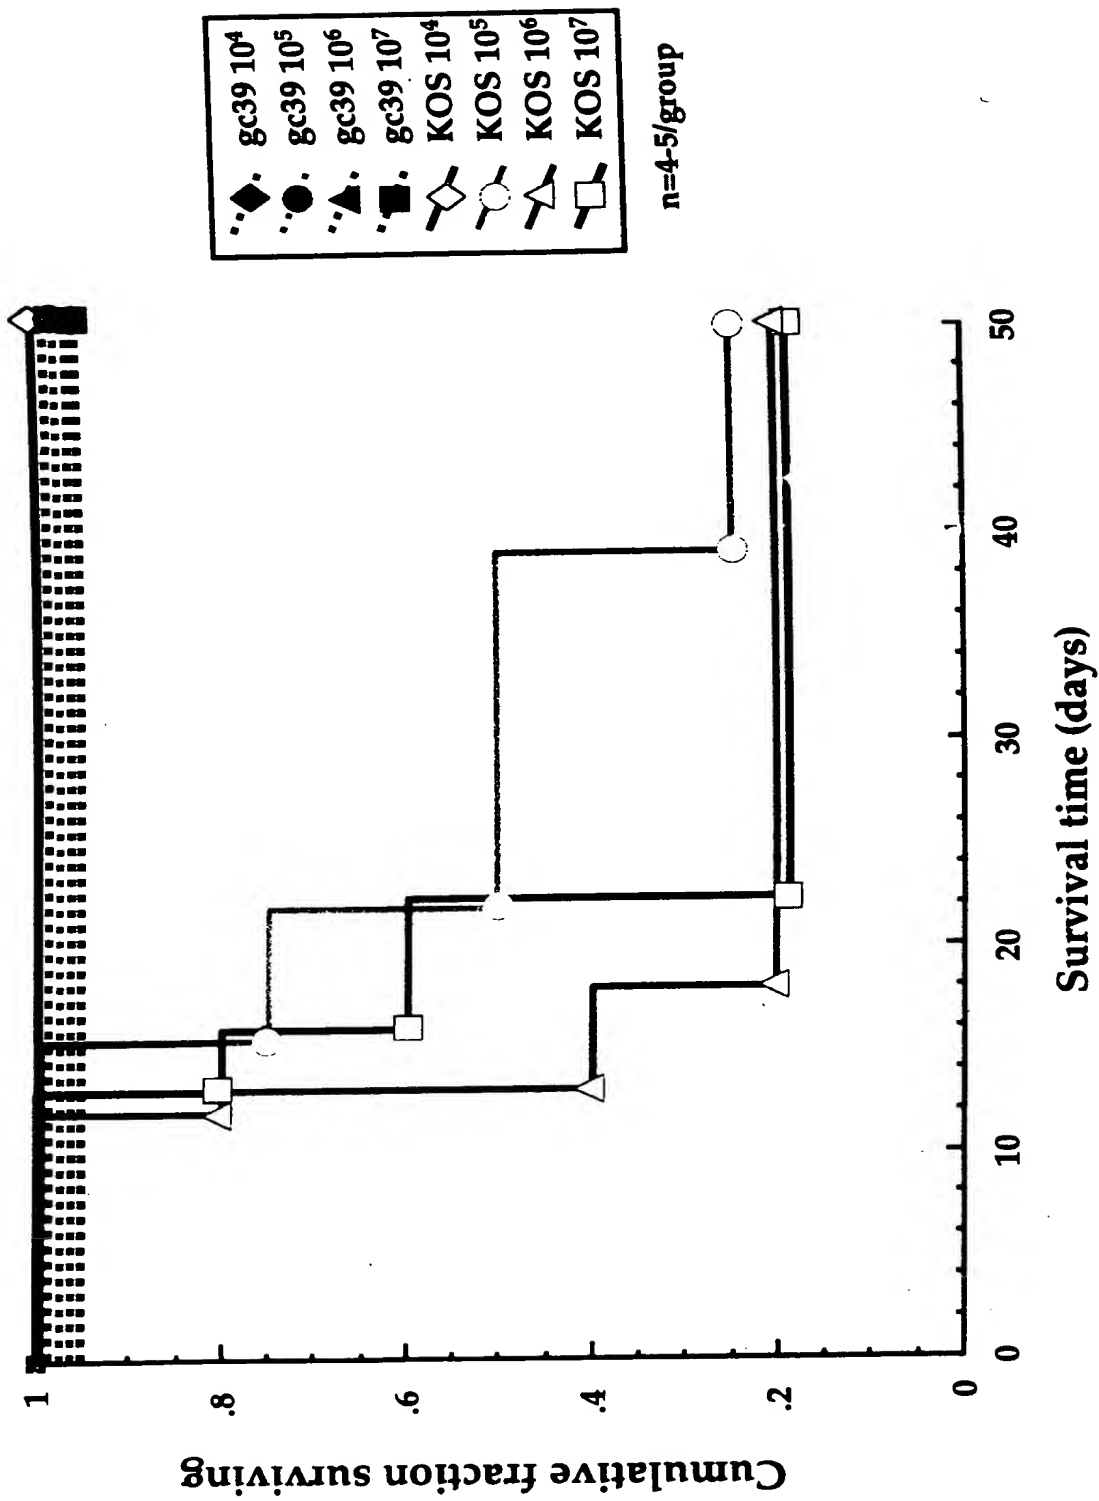

FIGURE 2A

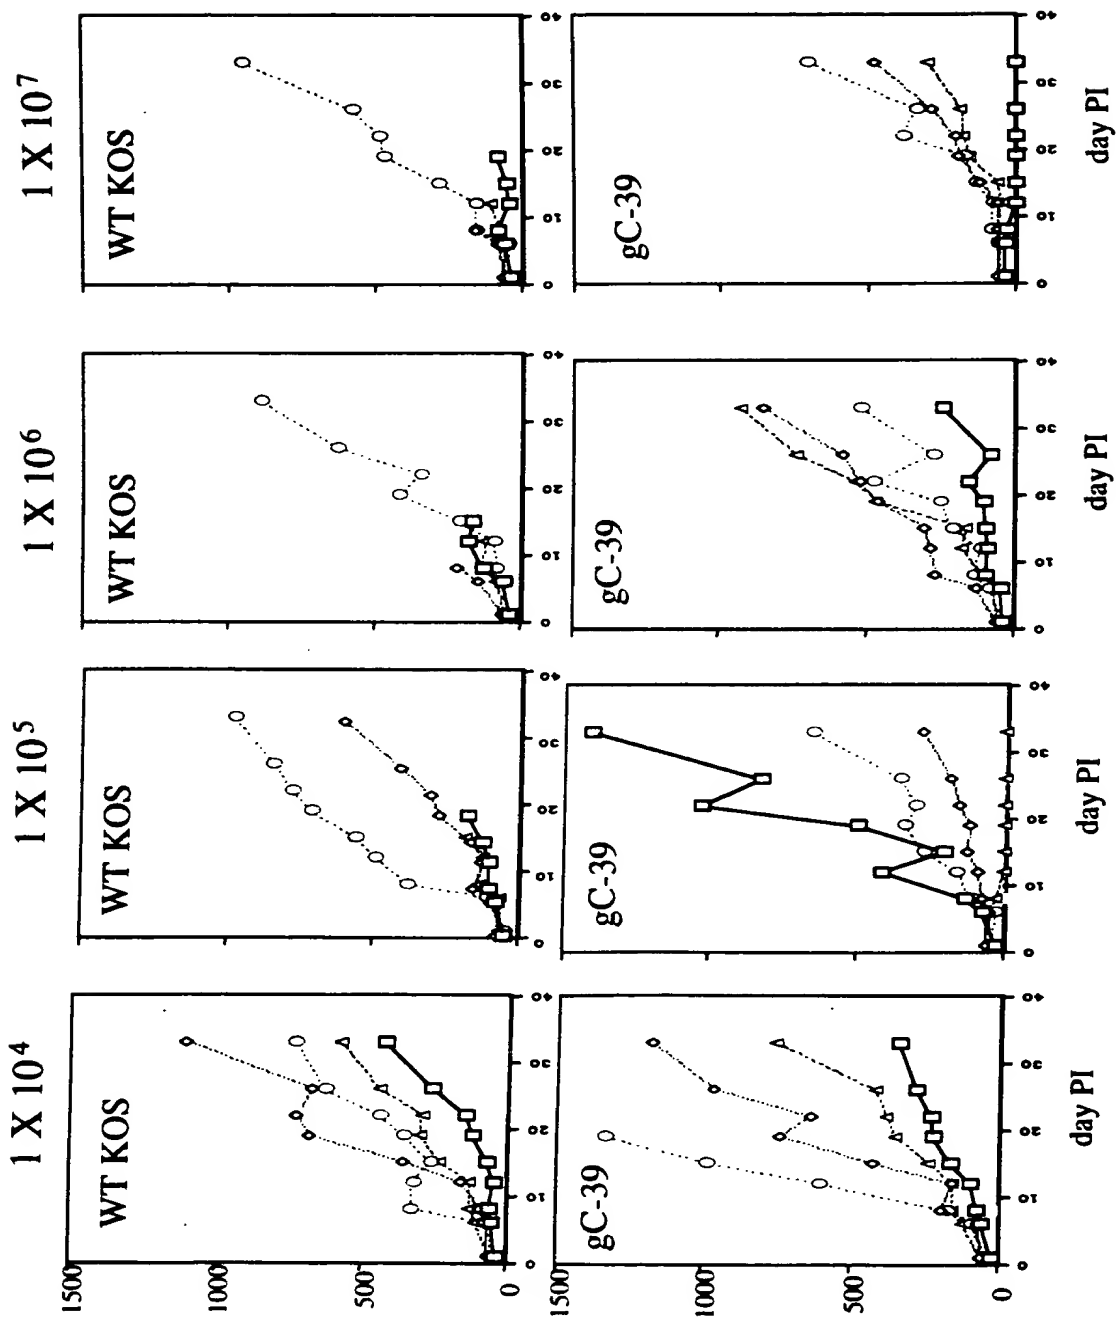

FIGURE 2B

Figure 3: Survival curves for different treatment groups. The y-axis represents the cumulative fraction surviving, and the x-axis represents survival time in days. The legend identifies eight groups: gc39 10<sup>5</sup>, gc39 10<sup>6</sup>, gc39 10<sup>7</sup>, gc39 10<sup>8</sup>, KOS 10<sup>5</sup>, KOS 10<sup>6</sup>, KOS 10<sup>7</sup>, and KOS 10<sup>8</sup>.
